

ALL SAINTS
KINGSTON

A little light for Ukraine

There was literally, an overflowing-from-the-boxes response to the candle collection at All Saints after Candlemas, in early February. Donations from the church, synagogue and unknown individuals filled nine carrier bags, three of which were collected early due to the urgent need for trench candles during the extremely cold Ukrainian winter.

The remaining candles were delivered to the very impressive organisation that is the Scrubbery, from where volunteers will re-form the wax into up to 90 trench candles, wrapped in corrugated cardboard, inside recycled tin cans, which can be used to heat one meal when there is no power.

We are considering how to facilitate future candle recycling.
